INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Ereğli Demir ve Çelik Fabrikaları T.A.Ş.;

Introduction

We have audited the accompanying consolidated balance sheet of Ereğli Demir ve Çelik Fabrikaları T.A.Ş. (the Company) and its Subsidiaries (together will be referred to as the "Group") as at 31 December 2013 and the related consolidated statement of profit or loss, consolidated statement of other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended and a summary of significant accounting policies and explanatory notes.

Management's responsibility for the financial statements

The Group's management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Turkish Accounting Standards published by the Public Oversight Accounting and Auditing Standards Authority of Turkey ("POA") and for such internal controls as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to error and/or fraud.

Independent auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. Our audit was conducted in accordance with standards on auditing issued by the Capital Markets Board of Turkey. Those standards require that ethical requirements are complied with and that the independent audit is planned and performed to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing independent audit procedures to obtain independent audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our professional judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to error and/or fraud. In making those risk assessments; the Company's internal control system is taken into consideration. Our purpose, however, is not to express an opinion on the effectiveness of internal control system, but to design procedures that are appropriate for the circumstances in order to identify the relation between the financial statements prepared by the Company and its internal control system. An audit includes also evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Company's management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained during our audit is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the accompanying consolidated financial statements present fairly the financial position of Ereğli Demir ve Çelik Fabrikaları T.A.Ş. and its Subsidiaries as at 31 December 2013 and their financial performance and cash flows for the year then ended in accordance with the Turkish Accounting Standards (Note 2).

Other Matters

We draw attention to the matter in note 17 to the accompanying consolidated financial statements: The court cases related to CMB's claim that the Company had prepared its December 31, 2005 financial statements in accordance with International Financial Reporting Standards instead of the Communiqué Serial XI, No:25 on "Accounting Standards in Capital Markets" without the permission of the CMB in prior years were concluded against the Company at Council of State and such conclusions declared to the Company via notifications received in July 2012. On August 1, 2012, the Company has applied to Administrative Court to remove the conflicting decisions of these courts; however there is no development regarding with this issue. The lawsuit, which was commenced by the Privatization Administration ("PA") of the Turkish Republic for the cancellation of the resolution of the Company's General Assembly dated March 30, 2006 regarding the dividend distribution, is still pending.

We draw attention to the matter in note 2.1 to the accompanying consolidated financial statements: In accordance with TAS 21 ("The Effects of Foreign Exchange Rates") the Group management decided to change the functional currency of the Company and its subsidiaries; Iskenderun Demir ve Çelik A.Ş. and Erdemir Çelik Servis Merkezi A.Ş. from Turkish Lira to US Dollars effective from the reporting periods as of July 1, 2013 and prepared its consolidated financial statements as of December 31, 2013, accordingly. Our conclusion is not qualified for these matters.

Reports on independent auditor's responsibilities arising from other regulatory requirements

In accordance with Article 402 of the Turkish Commercial Code ("TCC"); the Board of Directors submitted to us the necessary explanations and provided required documents within the context of audit; furthermore, no significant matter has come to our attention that causes us to believe that the Group's bookkeeping activities for the period January 1 –December 31, 2013 is not in compliance with the code and provisions of the Company's articles of association in relation to financial reporting.

Pursuant to Article 378 of TCC, Board of Directors of publicly traded companies are required to form an expert committee, and to run and to develop the necessary system for the purposes of early identification of causes that jeopardize the existence, development and continuity of the Company; applying the necessary measures and remedies in this regard; and, managing the related risks. According to subparagraph 4, Article 398 of the code, the auditor is required to prepare a separate report explaining whether the Board of Directors has established the system and authorized committee stipulated under Article 378 to identify risks that threaten or may threaten the company and to provide risk management, and, if such a system exists, the report, the principles of which shall be announced by the POA, shall describe the structure of the system and the practices of the committee. This report shall be submitted to the Board of Directors along with the auditor's report. Our audit does not include evaluating the operational efficiency and adequacy of the operations carried out by the management of the Group in order to manage these risks. As of the balance sheet date, POA has not announced the principles of this report yet so no separate report has been drawn up relating to it. On the other hand, the Group has formed the mentioned committee on September 24, 2012, which comprised of 2 members. The committee has met 3 times since its formation to the reporting date for the purposes of early identification of risks that jeopardize the existence of the company and its development, applying the necessary measures and remedies in this regard, and managing the risks, and has presented the relevant studies to the Board of Directors.

Additional paragraph for convenience translation into English

As at December 31, 2013, the accounting principles described in Note 2 (defined as Turkish Accounting Standards/Turkish Financial Reporting Standards) to the accompanying consolidated financial statements differ from International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board with respect to the application of inflation accounting, certain reclassifications and also for certain disclosures requirement of the POA/CMB. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position and results of operations in accordance with IFRS.

EREĞLİ DEMİR VE ÇELİK FABRİKALARI T.A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2013

(Amounts are expressed as Turkish Lira (“TRY”) unless otherwise indicated.)

NOTE 1 – GROUP’S ORGANIZATION AND NATURE OF OPERATIONS

Erdemir Grubu (“Group”), is composed of Ereğli Demir ve Çelik Fabrikaları T.A.Ş. (“Erdemir” or “the Company”), and its subsidiaries which it owns the majority of their shares or has a significant influence on their management structure.

The immediate parent and ultimate controlling party of the Group are Ataer Holding A.Ş. and Ordu Yardımlaşma Kurumu, respectively.

Ordu Yardımlaşma Kurumu (OYAK/Armed Forces Pension Fund) was incorporated on 1 March 1961 under the Act No. 205 as a private entity under its own law subject to Turkish civil and commercial codes and autonomous in financial and administrative matters. OYAK, being an “aid and retirement fund” for Turkish Armed Forces’ members, provides various services and benefits within the framework of social security concept anticipated by Turkish Constitution. OYAK has nearly sixty direct and indirect subsidiaries in industry, finance and service sectors. The detailed information about OYAK can be found on its official website (www.oyak.com.tr).

The Company was incorporated in Turkey as a joint stock company in 1960. The principal activities of the Company are production of iron and steel rolled products, alloyed and non-alloyed iron, steel and pig iron castings, cast and pressed products, coke and their by-products.

The Company’s shares have been traded in Istanbul Stock Exchange since the establishment of the Istanbul Stock Exchange (year 1986).

The main operations of the companies included in the consolidation and the share percentage of the Group for these companies are as follows:

Name of the Company	Country of Operation	Operation	2013 Share %	2012 Share %
İskenderun Demir ve Çelik A.Ş. (“İSDEMİR”)	Turkey	Iron and Steel	95,07	92,91
Erdemir Madencilik San. ve Tic. A.Ş.	Turkey	Iron Ore and Pellet	90,00	90,00
Erdemir Çelik Servis Merkezi San. ve Tic. A.Ş.	Turkey	Iron and Steel	100	100
Erenco Erdemir Müh. Yön. ve Dan. Hiz. A.Ş.	Turkey	Management and Consultancy	100	100
Erdemir Romania S.R.L.	Romania	Iron and Steel	100	100

Erdemir Gaz San. ve Tic. A.Ş. as disclosed in non-current financial investments is excluded from consolidation, as it has been dormant since its establishment at 21 December 2004 and it does not significantly affect the consolidated financial statements of the Group (Note 5). In the Extraordinary General Meeting of Erdemir Gaz San. ve Tic. A.Ş. dated 7 May 2012, liquidation of the Company has been decided. Registration and liquidation procedures are completed and published in Trade Registry Gazette numbered 8365 on 17 July 2013.

In the General Meeting of Erdemir Lojistik A.Ş. dated 8 June 2012, the merger of the Company with Erdemir Çelik Servis Merkezi San. ve Tic. A.Ş. has been decided. Merger operations has been completed as of 13 February 2013. This merger had no impact on the financial position of the Group.

In the Extraordinary General Meeting of İskenderun Demir ve Çelik A.Ş., it was decided to increase the capital from TRY 483.126.252,12 to TRY 2.900.000.000,00. The Company has increased its share capital in İskenderun Demir ve Çelik A.Ş from %92,91 to %95,07 (within the preferential rights).

It has been decided to move the Company’s headquarter to İstanbul in Annual General Assembly dated 29 March 2013.

NOTE 2 – BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

2.1 Basis of Presentation

The Company and all its subsidiaries in Turkey maintain their legal books of account and prepare their statutory financial statements (“Statutory Financial Statements”) in accordance with accounting principles issued by the Turkish Commercial Code (“TCC”) and tax legislation.

The Group’s consolidated financial statements and disclosures have been prepared in accordance with the communiqué numbered 11-14,1 “Communiqué on the Principles of Financial Reporting In Capital Markets” (“the Communiqué”) announced by the Capital Markets Board (“CMB”) (hereinafter will be referred to as “the CMB Accounting Standards”) on 13 June 2013 which is published on Official Gazette numbered 28676. The financial statements are prepared on cost basis, except the derivative financial instruments and iron ore and silicon steel used in the production of fixed assets carried on fair value measured at business at acquisition date (Note 5 and Note 7).

In accordance with article 5th of the CMB Reporting Standards, companies should apply Turkish Accounting Standards/Turkish Financial Reporting Standards and its interpretations issued by the Public Oversight Accounting and Auditing Standards Authority of Turkey (“POA”).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2013

(Amounts are expressed as Turkish Lira ("TRY") unless otherwise indicated)

NOTE 2 – BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.1 Basis of Presentation (cont'd)

Functional and Reporting Currency

TRY is accepted as the functional currency of the Company's subsidiaries operating in Turkey and presentation currency of the consolidated financial statements on 30 June 2013 and the previous periods.

There were changes in sale and collection policies of Company's and its subsidiaries' İskenderun Demir ve Çelik A.Ş. and Erdemir Çelik Servis Merkezi San. ve Tic. A.Ş in 2012.

Erdemir Group announced that there will not be on credit sales in TRY starting from 31 March 2012 its website and other communication channels. Starting from 31 March 2012, new orders and sales contracts excluding exports to Europe have been performed with US Dollar currency. In addition to this change, there were existing orders and sales contracts with TRY currency as of 31 March 2012. Therefore the effects of TRY sales with or without maturity continued during year of 2012.

Due to reasons stated above, the change of current functional currency of the Company and its subsidiaries İsdemir and Ersem from TRY into US Dollars has been considered. Group Management has started evaluating the effects of these changes made in 2012 and its possible effects on financial statements as of approval date of financial statements with the assumption that TRY is not representing the primary economic environment in which the Company and its subsidiaries İsdemir and Ersem operations.

According to the Company's management's point of view, due to decrease in TRY effect on the Group's economic environment, the requirements for change in the functional currency has not fully completed and that the functional currency of six months should be in TRY due to the major actual sales collections (nearly 50%) in TRY in 2012 and until the third quarter of 2013. Based on the Management's decision for increase in USD collections for trade receivables, there were changes in the IT infrastructure and the online banking system. After the changes in IT infrastructure and online banking systems, the collections have been started only in US Dollars in our banking system DBS ("Direct Debit System") as of September 2013, and The Company informed the customers through the Erdemir Online website. Due to the increase in USD collection in the third quarter of 2013, all conditions for functional currency change have been completed.

In the line with these developments in the third quarter of 2013, the Company Management concluded that change the functional currency of Ereğli Demir ve Çelik Fabrikaları T.A.Ş. and its subsidiaries İsdemir and Ersem from TRY to US Dollars is necessary.

As of balance sheet date, the effect of US Dollars over the activities of the Company and its subsidiaries, İsdemir and Ersem, are significant and reflect the economic conditions in which the company and its subsidiaries İsdemir and Ersem operates.

Due to aforementioned reasons, The Company management decided to change the functional currency of the Company and its subsidiaries İsdemir and Ersem from TRY to US Dollars in accordance with TAS 21 ("The Effects of Foreign Exchange Rates"). Although the appropriate conditions in the functional currency exchange of the Company and its subsidiaries İsdemir and Ersem has been finalized in September 2013, the Company management evaluated the effect of change of the functional currency effect to 1 July – 30 September 2013 and decided to apply the functional currency change starting from 1 July 2013. The functional currencies of the Company's subsidiaries, Erdemir Madencilik San. Ve Tic. A.Ş. "Ermaden" and Erdemir Mühendislik Yönetim ve Danışmanlık Hizmetleri A.Ş "Erenco", operating in Turkey have been accepted in TRY as in previous periods.

Therefore, the Company's and its subsidiaries İsdemir and Ersem financial statements applied US Dollars functional currency starting from the beginning of third quarter, which is 1 July 2013. All the figures on the financial statements, except US Dollars, are considered as foreign currencies. Transactions and balances US Dollars denominated are re-calculated in US Dollars as the following under TAS 21 ("The Effects of Foreign Exchange Rates").

Profit Before Tax	1.248.161.209	1.314.661.180	(66.499.971)

According to TAS 21 (“The Effects of Foreign Exchange Rates”) changes in the functional currency should be applied on a going-forward basis. Consequently there has not been any correction in the financial statements and notes for 30 June 2013 and previous periods. Due to the changes in the functional currency, all the figures in the six months period ended 30 June 2013 income statement are translated annual average buying rate; all the figures in the six months period ended 30 June 2013 balance sheet figures are translated into US Dollars by using Central Bank’s buying rate as of 30 June 2013, which corresponds to 1,9248 and all these figures are taken as the opening historical cost of non-monetary balance sheet items such as; tangible and intangible assets, investment property, inventories and equity. The 1 July – 30 December 2013 movements of these items and the statement of income are translated to US Dollars at the rates of exchange prevailing on the dates of the transactions (or by using average exchange rate when suitable). The translation difference gain is recognized as foreign exchange income/ (loss) under financial income/ (expenses).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2013

(Amounts are expressed as Turkish Lira ("TRY") unless otherwise indicated.)

NOTE 2 – BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.1 Basis of Presentation (cont'd)

Functional and Reporting Currency (cont'd)

The financial statements of the subsidiary operating in Romania have been prepared in accordance with the legislation in force within the country, and are arranged reflecting the necessary adjustments and reclassifications in conformity with IFRS. The assets and liabilities of the foreign subsidiary in terms of EUR have been translated into Turkish Lira using the foreign exchange rate at the balance sheet date.

The functional currency of the subsidiary operating in Romania which was Romanian Lei before has been changed into Euro due to change of sales conditions in 2012 effective as of 1 January 2012. The change has no effect in previous year financial statements.

Presentation currency translation

Presentation currency of the consolidated financial statements is TRY. According to IAS 21 ("The Effects of Changes in Foreign Exchange Rates") financial statements, that are prepared in USD Dollars for İsdemir and Ersemir and in Euro for Erdemir Romania, have been translated in TRY as the following method:

- a) For the purpose of presenting consolidated financial statements, the assets and liabilities are translated from USD Dollars into TRY using the Central Bank of Turkey's exchange rate which is TRY 2,1343=US \$ 1 and TRY 2,9365=EUR 1 on the balance sheet date (31 December 2012: TRY 1,7826= US \$ 1, TRY 2,3517=EUR 1).
- b) For the year ended 31 December 2013, income statements are translated from the average TRY 1,9022=US \$ 1 and TRY 2,5277=EUR 1 rates of 2013 January-December period.
- c) Exchange differences are shown in other comprehensive income as of foreign currency translation reserve.
- d) Presentation currency translation difference that occurs due to the items of shareholders' equity of the Company in the statutory accounts is recognised as translation differences under equity.

Going concern

The Group prepared consolidated financial statements in accordance with the going concern assumption.

Approval of the consolidated financial statements

The consolidated financial statements have been approved and authorized to be published on 13 February 2014 by the Board of Directors. The General Assembly has the authority to revise the financial statements.

2.2 Changes in Accounting Estimates and Errors

The changes in accounting estimates affecting the current period are recognized in the current period, the changes in accounting estimates affecting both in the current and future periods, prospectively.

EREĞLİ DEMİR VE ÇELİK FABRİKALARI T.A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2013

(Amounts are expressed as Turkish Lira (“TRY”) unless otherwise indicated.)

NOTE 2 – BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

(cont’d)

2.3 Consolidation Principles

The consolidated financial statements include the accounts of the parent company, Ereğli Demir ve Çelik Fabrikaları T.A.Ş., and its Subsidiaries on the basis set out in sections below. The financial statements of the companies included in the consolidation have been prepared as of the date of the consolidated financial statements and are based on the statutory records with adjustments and reclassifications for the purpose of presentation in conformity TAS/IFRS promulgated by the POA as set out in the communiqué numbered 11-14.1, and Group accounting and disclosure policies.

Subsidiaries are the Companies controlled by Erdemir when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Subsidiaries are consolidated from the date on which the control is transferred to the Group and are no longer consolidated from the date that the control ceases.

The statement of financial position and statements profit or loss of the Subsidiaries are consolidated on a line-by-line basis and the carrying value of the investment held by Erdemir and its Subsidiaries is eliminated against the related shareholders’ equity. Intercompany transactions and balances between Erdemir and its Subsidiaries are eliminated on consolidation. The cost of, and the dividends arising from, shares held by Erdemir in its Subsidiaries are eliminated from shareholders’ equity and income for the year, respectively.

The table below sets out all Subsidiaries included in the scope of consolidation and discloses their direct and indirect ownership, which are identical to their economic interests, as of December 31, 2013 and 2012 (%) and their functional currencies:

	31 December 2013			31 December 2012		
	Functional Currency	Ownership Interest	Effective Shareholding	Functional Currency	Ownership Interest	Effective Shareholding
İsdemir	US Dollars	95,07	95,07	Turkish Lira	92,91	92,91
Ersem	US Dollars	100,00	100,00	Turkish Lira	100,00	100,00
Ermaden	Turkish Lira	90,00	90,00	Turkish Lira	90,00	90,00
Erenco	Turkish Lira	100,00	100,00	Turkish Lira	100,00	100,00
Erdemir Romania S.R.L.	Euro	100,00	100,00	Euro	100,00	100,00

Available-for-sale investments, in which the Group has attributable interests below 20% or in which a significant influence is not exercised by the Group, that have quoted market prices in active markets and whose fair values can be reliably measured are carried at fair value.

The non-controlling share in the net assets and results of Subsidiaries for the year are separately classified as non-controlling interest in the consolidated statements of financial position and consolidated statements of profit or loss.

2.4 Comparative Information and Restatement of Consolidated Financial Statements with Prior Periods

The Group’s consolidated financial statements are presented in comparison with the previous period in order to allow for the determination of the financial position and performance trends. The comparative information is reclassified when necessary in order to be aligned with the current period consolidated financial statements. The detailed information about these restatements are presented in Note 34.

NOTE 2 – BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)

2.5 Significant Judgments and Estimates of the Group on Application of Accounting Policies

The Group makes estimates and assumptions prospectively while preparing its consolidated financial statements. These accounting estimates are rarely identical to the actual results. The estimates and assumptions that may cause significant adjustments to the carrying values of assets and liabilities in the following reporting periods are listed below:

2.5.1 Useful lives of property, plant and equipment and intangible assets

The Group calculates depreciation for the fixed assets by taking into account their production amounts and useful lives that are stated in Note 2.9.3 and 2.9.4 (Note 13, Note 14).

2.5.2 Deferred tax

The Group recognizes deferred tax on the temporary timing differences between the carrying amounts of assets and liabilities in the financial statements prepared in accordance with TFRS and statutory financial statements which is used in the computation of taxable profit. The related differences are generally due to the timing difference of the tax base of some income and expense items between statutory and TFRS financial statements. The Group has deferred tax assets resulting from tax loss carry-forwards and deductible temporary differences, which could reduce taxable income in the future periods. All or partial amounts of the realizable deferred tax assets are estimated in current circumstances. The main factors which are considered include future earnings potential; cumulative losses in recent years; history of loss carry-forwards and other tax assets expiring, the carry-forward period associated with the deferred tax assets, future reversals of existing taxable temporary differences that would, if necessary, be implemented, and the nature of the income that can be used to realize the deferred tax asset (Note 28).

2.5.3 Fair values of derivative financial instruments

The Group values its derivative financial instruments by using the foreign exchange and interest rate estimations and based on the valuation estimates of the market values as of the balance sheet date (Note 5, Note 7, Note 31).

2.5.4 Provision for doubtful receivables

Allowance for doubtful receivables reflect the future loss that the Group anticipates to incur from the trade receivables as of the balance sheet date which is subject to collection risk considering the current economic conditions. During the impairment test for the receivables, the debtors are assessed with their prior year performances, their credit risk in the current market, their performance after the balance sheet date up to the issuing date of the financial statements; and also the renegotiation conditions with these debtors are considered. The provision for doubtful receivables is presented in Note 8 and Note 9.

2.5.5 Provision for inventories

During the assessment of the provision for inventory the following are considered; analyzing the inventories physically and historically, considering the employment and usefulness of the inventories respecting to the technical personnel view. Sales prices listed, average discount rates given for sale and expected cost incurred to sell are used to determine the net realizable value of the inventories. As a result of this, the provision for inventories with the net realizable values below the costs and the slow moving inventories are presented in Note 10.

2.5 Significant Judgments and Estimates of the Group on Application of Accounting Policies (cont’d)

2.5.6 Provisions for employee benefits

Actuarial Assumptions about discount rates, inflation rates, future salary increases and employee turnover rates are made to calculate Group’s provision for employee benefits. The details related with the defined benefit plans are stated in Note 16.

2.5.7 Provision for lawsuits

Provision for lawsuits is evaluated by the Group Management based on opinions of Group Legal Council and legal consultants. The Group Management determines the amount of provisions based on best estimates. As of balance sheet date, provision for lawsuits is stated in Note 17.

2.6 Offsetting

Financial assets and liabilities are offset and the net amounts are reported with their net values in the balance sheet where either there is a legally enforceable right to offset the recognized amounts or there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

2.7 Adoption of New and Revised Financial Reporting Standards

The accounting policies adopted in the preparation of the consolidated financial statements as at 31 December 2013 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and IFRIC interpretations effective as of 1 January 2013 summarized below. The effects of these standards and interpretations on the Group’s financial position and performance have been disclosed in the related paragraphs.

The new standards, amendments and interpretations which are effective as at 1 January 2013 are as follows:

TFRS 7 Financial Instruments: Disclosures – Offsetting Financial Assets and Financial Liabilities (Amendment)

The amendment requires the disclosure of the rights of the entity relating to the offsetting of the financial instruments and some information about the related regulations (eg, collateral agreements). New disclosures would provide users of financial statements with information that is useful in

- i) evaluating the effect or potential effect of netting arrangements on an entity’s financial position and,
- ii) analyzing and comparing financial statements prepared in accordance with TFRSs and other generally accepted accounting standards.

New disclosures have to be provided for all the financial instruments in the balance sheet that have been offset according to TAS 32. Such disclosures are applicable to financial instruments in the balance sheet that have not been offset according to TAS 32 but are available for offsetting according to main applicable offsetting regulations or other financial instruments that are subject to a similar agreement. The amendment affects disclosures only and did not have any impact on the interim condensed consolidated financial statements of the Group.

TAS 1 Presentation of Financial Statements (Amended) – Presentation of Items of Other Comprehensive Income

The amendments to IAS 1 change only the grouping of items presented in other comprehensive income. Items that could be reclassified subsequently (or ‘recycled’) to profit or loss at a future point in time would be presented separately from items which will never be reclassified. The amendments will be applied retrospectively. The amendment affects presentation only and did not have an impact on the financial position or performance of the Group.

NOTE 2 – BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)

2.7 Adoption of New and Revised Financial Reporting Standards (cont’d)

TAS 19 Employee Benefits (Amended)

Numerous changes or clarifications are made under the amended standard. Among these numerous amendments, the most important changes are removing the corridor mechanism, for determined benefit plans recognizing actuarial gain/(loss) under other comprehensive income and making the distinction between short-term and other long-term employee benefits based on expected timing of settlement rather than employee entitlement. The Group has accounted the actuarial gain/losses in other comprehensive income in accordance with the amendment. As a result of change in actuarial gain/ losses in other comprehensive income difference from previous year is explained in Note 34. Additionally, based on the amendment in the presentation of short term employee benefits, vacation pay liability formerly presented in the short term provisions has been retrospectively reclassified to long term provisions.

TAS 27 Separate Financial Statements (Amended)

As a consequential amendment to TFRS 10 and TFRS 12, the POA also amended TAS 27, which is now limited to accounting for subsidiaries, jointly controlled entities, and associates in separate financial statements. This amendment did not have an impact on the financial position or performance of the the Group.

TAS 28 Investments in Associates and Joint Ventures (Amended)

As a consequential amendment to TFRS 11 and TFRS 12, the POA also amended TAS 28, which has been renamed TAS 28 Investments in Associates and Joint Ventures, to describe the application of the equity method to investments in joint ventures in addition to associates. Transitional requirement of this amendment is similar to TFRS 11. This amendment did not have an impact on the financial position or performance of the Group.

TFRS 10 Consolidated Financial Statements

TFRS 10 replaces the parts of previously existing TAS 27 Consolidated and Separate Financial Statements that addresses the accounting for consolidated financial statements. A new definition of control is introduced, which is used to determine which entities are consolidated. This is a principle based standard and require preparers of financial statements to exercise significant judgment. This amendment will not have an impact on the financial position or performance of the Group.

TFRS 11 Joint Arrangements

The standard describes the accounting for joint ventures and joint operations with joint control. Among other changes introduced, under the new standard, proportionate consolidation is not permitted for joint ventures. This standard did not have an impact on the financial position or performance of the Group.

TFRS 12 Disclosure of Interests in Other Entities

TFRS 12 includes all of the requirements that are related to disclosures of an entity’s interests in subsidiaries, joint arrangements, associates and structured entities. Apart from the disclosures regarding the significant issues and transactions, disclosures according to the new standards are not applicable so the Group did not provide this disclosure for the year ended financial statements.

NOTE 2 – BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)

2.7 Adoption of New and Revised Financial Reporting Standards (cont’d)

IFRS 13 Fair Value Measurement

The new Standard provides guidance on how to measure fair value under IFRS but does not change when an entity is required to use fair value. It is a single source of guidance under IFRS for all fair value measurements. The new standard also brings new disclosure requirements for fair value measurements. The new disclosures are only required for periods beginning after TFRS 13 is adopted. Some of the disclosures about the financial instruments mentioned above, have to be provided in the interim condensed consolidated financial statements according to TAS 34.16 A (j). This amendment did not have an impact on the interim consolidated financial statements of the Group.

IFRIC 20 Stripping Costs in the Production Phase of a Surface Mine

Entities will be required to apply its requirements for production phase stripping costs incurred from the start of the earliest comparative period presented. The Interpretation clarifies when production stripping should lead to the recognition of an asset and how that asset should be measured, both initially and in subsequent periods. The interpretation is applicable for the Group however did not have any impact on the financial position or performance of the Group.

Transition Guidance (Amendments to TFRS 10, TFRS 11 and TFRS 12)

The amendments change the transition guidance to provide further relief from full retrospective application. The date of initial application is defined as ‘the beginning of the annual reporting period in which TFRS 10 is applied for the first time’. The assessment of whether control exists is made at ‘the date of initial application’ rather than at the beginning of the comparative period. If the control assessment is different between TFRS 10 and TAS 27/SIC-12, retrospective adjustments should be determined. However, if the control assessment is the same, no retrospective application is required. If more than one comparative period is presented, additional relief is given to require only one period to be restated. For the same reasons IASB has also amended TFRS 11 Joint Arrangements and TFRS 12 Disclosure of Interests in Other Entities to provide transition relief. These amendments did not have an impact on the interim consolidated financial statements of the Group.

Improvements to TFRS

Annual Improvements to TFRSs – 2009 – 2011 Cycle, which contains amendments to its standards, is effective for annual periods beginning on or after 1 January 2013. This project did not have an impact on the financial position or performance of the Group.

TAS 1 Financial Statement Presentation:

Clarifies the difference between voluntary additional comparative information and the minimum required comparative information.

TAS 16 Property, Plant and Equipment:

Clarifies that major spare parts and servicing equipment that meet the definition of property, plant and equipment are not inventory.

Improvements to TFRS (cont’d)

TAS 32 Financial Instruments: Presentation:

Clarifies that income taxes arising from distributions to equity holders are accounted for in accordance with TAS 12 Income Taxes. The amendment removes existing income tax requirements from TAS 32 and requires entities to apply the requirements in TAS 12 to any income tax arising from distributions to equity holders.

TAS 34 Interim Financial Reporting:

Clarifies the requirements in TAS 34 relating to segment information for total assets and liabilities for each reportable segment. Total assets and liabilities for a particular reportable segment need to be disclosed only when the amounts are regularly provided to the chief operating decision maker and there has been a material change in the total amount disclosed in the entity’s previous annual financial statements for that reportable segment.

Standards issued but not yet effective and not early adopted

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the consolidated interim financial statements are as follows. The Group will make the necessary changes if not indicated otherwise, which will be affecting the interim condensed consolidated financial statements and disclosures, after the new standards and interpretations become in effect.

TAS 32 Financial Instruments: Presentation - Offsetting Financial Assets and Financial liabilities (Amended)

The amendments clarify the meaning of “currently has a legally enforceable right to set-off” and also clarify the application of the TAS 32 offsetting criteria to settlement systems (such as central clearing house systems) which apply gross settlement mechanisms that are not simultaneous. These amendments are to be retrospectively applied for annual periods beginning on or after 1 January 2014. The Group does not expect that these amendments will have significant impact on the financial position or performance of the Group.

TFRS 9 Financial Instruments – Classification and measurement

As amended in December 2011, the new standard is effective for annual periods beginning on or after 1 January 2015. Phase I of this new TFRS introduces new requirements for classifying and measuring financial instruments. The amendments made to TFRS 9 will mainly affect the classification and measurement of financial assets and measurement of fair value option (FVO) liabilities and requires that the change in fair value of a FVO financial liability attributable to credit risk is presented under other comprehensive income. Early adoption is permitted. This standard has not yet been endorsed by the EU. The Group is in the process of assessing the impact of the amendment on financial position or performance of the Group.

IFRIC Interpretation 21 Levies

The interpretation clarifies that an entity recognizes a liability for a levy when the activity that triggers payment, as identified by the relevant legislation, occurs. It also clarifies that a levy liability is accrued progressively only if the activity that triggers payment occurs over a period of time, in accordance with the relevant legislation. For a levy that is triggered upon reaching a minimum threshold, the interpretation clarifies that no liability should be recognized before the specified minimum threshold is reached. The interpretation is effective for annual periods beginning on or after 1 January 2014, with early application permitted. Retrospective application of this interpretation is required. The Group does not expect that this amendment will have any impact on the financial position or performance of the Group.

2.7 Adoption of New and Revised Financial Reporting Standards (cont’d)

The new standards, amendments and interpretations that are issued by the International Accounting Standards Board (IASB) but not issued by POA:

TAS 36 Impairment of Assets - Recoverable Amount Disclosures for Non-Financial assets (Amendment)

As a consequential amendment to TFRS 13 Fair Value Measurement, some of the disclosure requirements in TAS 36 Impairment of Assets regarding measurement of the recoverable amount of impaired assets has been modified. The amendments require additional disclosures about the measurement of impaired assets (or a group of assets) with a recoverable amount based on fair value less costs of disposal. The amendments are to be applied retrospectively for annual periods beginning on or after 1 January 2014. Earlier application is permitted for periods when the entity has already applied TFRS 13. The Group does not expect that this amendment will have any impact on the financial position or performance of the Group.

TAS 39 Financial Instruments: Recognition and Measurement - Novation of Derivatives and Continuation of Hedge Accounting (Amendment)

Amendments to TAS 39 Financial Instruments: Recognition and Measurement that provides a narrow exception to the requirement for the discontinuation of hedge accounting in circumstances when a hedging instrument is required to be novated to a central counterparty as a result of laws or regulations. The amendments are to be applied retrospectively for annual periods beginning on or after 1 January 2014. The Group does not expect that this amendment will have any impact on the financial position or performance of the Group.

The following standards, interpretations and amendments to existing IFRS standards are issued by the IASB but not yet effective up to the date of issuance of the interim financial statements. However, these standards, interpretations and amendments to existing IFRS standards are not yet adapted/issued by the POA, thus they do not constitute part of TFRS. The Group will make the necessary changes to its consolidated financial statements after the new standards and interpretations are issued and become effective under TFRS.

IFRS 10 Consolidated Financial Statements (Amendment)

IFRS 10 is amended to provide an exception to the consolidation requirement for entities that meet the definition of an investment entity. The exception to consolidation requires investment entities to account for subsidiaries at fair value through profit or loss in accordance with IFRS 9 Financial Instruments. The Group does not expect that this amendment will have any impact on the financial position or performance of the Group.

IFRS 9 Financial Instruments – Hedge Accounting and amendments to IFRS 9, IFRS 7 and IAS 39 -IFRS 9 (2013)

In November 2013, the IASB issued a new version of IFRS 9, which includes the new hedge accounting requirements and some related amendments to IAS 39 and IFRS 7. Entities may make an accounting policy choice to continue to apply the hedge accounting requirements of IAS 39 for all of their hedging relationships. The standard does not have a mandatory effective date, but it is available for application now; a new mandatory effective date will be set when the IASB completes the impairment phase of its project on the accounting for financial instruments. The Group is in the process of assessing the impact of the standard on financial position or performance of the Group.

Improvements to IFRSs

In December 2013, the IASB issued two cycles of Annual Improvements to IFRSs – 2010–2012 Cycle and IFRSs – 2011–2013 Cycle. Other than the amendments that only affect the standards' Basis for Conclusions, the changes are effective 1 July 2014. Earlier application is permitted.

Annual Improvements to IFRSs – 2010–2012 Cycle

IFRS 2 Share-based Payment:

Definitions relating to vesting conditions have changed and performance condition and service condition are defined in order to clarify various issues. The amendment is effective prospectively.

IFRS 3 Business Combinations

Contingent consideration in a business acquisition that is not classified as equity is subsequently measured at fair value through profit or loss whether or not it falls within the scope of IFRS 9 Financial Instruments. The amendment is effective for business combinations prospectively.

IFRS 8 Operating Segments

The changes are as follows: i) Operating segments may be combined/aggregated if they are consistent with the core principle of the standard. ii) The reconciliation of segment assets to total assets is only required to be disclosed if the reconciliation is reported to the chief operating decision maker. The amendments are effective retrospectively.

IFRS 13 Fair Value Measurement

As clarified in the Basis for Conclusions short-term receivables and payables with no stated interest rates can be held at invoice amounts when the effect of discounting is immaterial. The amendment is effective immediately.

IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets

The amendment to IAS 16.35(a) and IAS 38.80(a) clarifies that revaluation can be performed, as follows:

i) Adjust the gross carrying amount of the asset to market value or ii) determine the market value of the carrying amount and adjust the gross carrying amount proportionately so that the resulting carrying amount equals the market value. The amendment is effective retrospectively.

IAS 24 Related Party Disclosures

The amendment clarifies that a management entity – an entity that provides key management personnel services – is a related party subject to the related party disclosures. The amendment is effective retrospectively.

IFRS 3 Business Combinations

The amendment clarifies that: i) Joint arrangements are outside the scope of IFRS 3, not just joint ventures ii) The scope exception applies only to the accounting in the financial statements of the joint arrangement itself. The amendment is effective prospectively.

IFRS 13 Fair Value Measurement

The portfolio exception in IFRS 13 can be applied to financial assets, financial liabilities and other contracts. The amendment is effective prospectively.

IAS 40 Investment Property

The amendment clarifies the interrelationship of IFRS 3 and IAS 40 when classifying property as investment property or owner-occupied property. The amendment is effective prospectively.

IFRS 14 - interim standard on regulatory deferral accounts.

In January 2014, the IASB issued this standard. IFRS 14 permits first-time adopter rate regulated entities to continue to recognize amounts related to rate regulation in accordance with their previous GAAP requirements when they adopt IFRS. Existing IFRS preparers are prohibited from adopting this Standard. The Standard will be applied on a full retrospective basis and is effective for annual periods beginning on or after 1 January 2016. Earlier application is permitted. The Standard is not applicable for the Group and will not have an impact on the financial position or performance of the Group.

Resolutions promulgated by the Public Oversight Authority

In addition to those mentioned above, the POA has promulgated the following resolutions regarding the implementation of Turkish Accounting Standards. “The financial statement examples and user guide” became immediately effective at its date of issuance; however, the other resolutions shall become effective for the annual reporting periods beginning after December 31, 2012.

2013-1 Financial Statement Examples and User Guide

The POA promulgated “financial statement examples and user guide” on May 20, 2013 in order to ensure the uniformity of financial statements and facilitate their audit. The financial statement examples within this framework were published to serve as an example to financial statements to be prepared by companies obliged to apply Turkish Accounting Standards, excluding financial institutions established to engage in banking, insurance, private pensions or capital market. The classifications made by the POA are disclosed in Note 34.

2013-2 Accounting of Combinations under Common Control

In accordance with the resolution it has been decided that i) combination of entities under common control should be recognized using the pooling of interest method, ii) and thus, goodwill should not be included in the financial statements and iii) while using the pooling of interest method, the financial statements should be prepared as if the combination has taken place as of the beginning of the reporting period in which the common control occurs and should be presented comparatively from the beginning of the reporting period in which the common control occurred. This resolution did not have any impact on the financial statements of the Group.

2013-3 Accounting of Redeemed Share Certificates

Clarification has been provided on the conditions and circumstances where the redeemed share certificates shall be recognized as a financial liability or equity based financial instruments. This resolution did not have any impact on the financial statements of the Group/Company.

2013-4 Accounting of Cross Shareholding Investments

If a subsidiary of an entity holds shares of the entity then this is defined as cross shareholding investment. Accounting of this cross investment is assessed based on the type of the investment and different recognition principles adopted accordingly. With this resolution, this topic has been assessed under three main headings below and the recognition principles for each one of them has been determined.

- i) the subsidiary holding the equity based financial instruments of the parent,
- ii) the associates or joint ventures holding the equity based financial instruments of the parent,
- iii) the parent's equity based financial instruments are held by an entity, which is accounted as an investment within the scope of TAS 39 and TFRS 9 by the parent.

This resolution did not have any impact on the financial statements of the Group.

2.8 Valuation Principles Applied / Significant Accounting Policies

Valuation principles and accounting policies used in the preparation of the consolidated financial statements are as follows:

2.8.1 Revenue recognition

Revenue is measured at the fair value of the received or receivable amount. The estimated customer returns, rebates, and other similar allowances are deducted from this amount.

(Convenience Translation into English of Consolidated Financial Statements Originally Issued in Turkish – See Note 34)

NOTE 2 – BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont’d)

2.9 Valuation Principles Applied / Significant Accounting Policies (cont’d)

2.8.1 Revenue recognition (cont’d)

Sale of goods

Revenue from the sale of goods is recognized when all the following conditions are satisfied:

- The Group transfers the significant risks and benefits of the ownership of the goods to the buyer;
- The Group retains neither a continuing managerial involvement usually associated with ownership nor effective control over the goods sold;
- The amount of revenue is measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Group; and
- The costs incurred or to be incurred due to the transaction are measured reliably.

Dividend and interest revenue

Interest revenue is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset’s net carrying amount. Group’s interest income from sales with maturities is recognized in other operating income.

Dividend revenue from investments is recognized when the shareholders’ rights to receive payment have been established.

Rental income

Rental income from investment properties is recognized on a straight-line basis over the term of the relevant lease.

2.8.2 Inventories

Inventories are valued at the lower of cost or net realizable value. The costs, including an appropriate portion of fixed and variable overhead expenses, are assigned to inventories held by the method most appropriate to the particular class of inventory, with the majority valued by using the monthly weighted moving average method. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

2.8.3 Property, plant and equipment

Property, plant and equipment purchased before 1 January 2005 are disclosed in the financial statements at their indexed historical cost for inflation effects as at 31 December 2004, on the other hand the purchases made in 2005 and in later periods are presented at their historical cost, less depreciation and impairment loss. Except for land and construction in progress, other tangible assets are depreciated according to straight-line basis or units of production method basis using the expected useful lives and production amounts of the assets.

NOTE 2 – BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.8 Valuation Principles Applied / Significant Accounting Policies (cont'd)

2.8.3 Property, plant and equipment (cont'd)

The Group's tangible fixed assets operating in the production of iron ore and high silicon flat steel are stated in the balance sheet at their revalued amounts. Any increase arising from the revaluation of the existing assets is recorded under the revaluation reserve, in the shareholders' equity. A decrease in carrying amount arising on the revaluation of assets is charged to the consolidated income statement to the extent that it exceeds the balance in the revaluation reserve that is related to the previous revaluation.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets or cash-generating units are written down to their recoverable amounts. The recoverable amount of property, plant and equipment is the greater of net selling price and value in use.

In assessing the value in use, the estimated future cash flows are discounted to their present values using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs. Impairment losses are recognized in the consolidated income statement.

The rates that are used to depreciate the fixed assets are as follows:

	Rates
Buildings	2-16%
Land improvements	2-33% and units of production level
Machinery and equipment	3-50% and units of production level
Vehicles	5-25% and units of production level
Furniture and fixtures	5-33%
Other tangible fixed assets	5-25%

2.8.4 Intangible assets

Intangible assets purchased before 1 January 2005 are recognized at their acquisition cost indexed for inflation effects as at 31 December 2004, on the other hand the purchases made in and after 1 January 2005 are recognized at acquisition cost less any amortization and impairment loss. Intangible assets are amortized principally on a straight-line basis over their estimated useful lives and production amounts. The estimated useful life and amortization method are reviewed at the end of each annual reporting period, and any changes in the estimate are accounted for on a prospective basis.

The amortization rates of the intangible assets are stated below:

	Rates
Rights	2-33%
Exploration costs and other intangible fixed assets with special useful lives	5-10% and units of production
Other intangible fixed assets	20-33%

2.8 Valuation Principles Applied / Significant Accounting Policies (cont’d)

2.8.5 Investment properties

Investment properties, which are held to earn rental income and/or for capital appreciation are measured initially at cost any accumulated impairment losses.

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the consolidated statement of income in the year of retirement or disposal.

2.8.6 Impairment of assets

Assets subject to depreciation and amortization are tested for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. An impairment loss is recognized for the amount by which the asset’s carrying amount exceeds its recoverable amount. The recoverable amount is the greater of net selling price and value in use. Recoverable amounts are estimated for individual assets (for the cash-generating unit). Non-financial assets that are impaired are evaluated for reversal of impairment amount at each reporting date.

2.8.7 Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets, one that takes a substantial period of time to get ready for use or sale, are capitalized as part of the cost of that asset in the period in which the asset is prepared for its intended use or sale. Investment revenues arising from the temporary utilization of the unused portion of facility loans are netted off from the costs eligible for capitalization.

All other borrowing costs are recognized directly in the consolidated income statement of the period in which they are incurred.

2.8.8 Financial instruments

Financial assets and financial liabilities are recognized in the Group’s consolidated balance sheet when the Group becomes a legal party for the contractual provisions of the financial instrument.

Financial assets

Financial assets, are initially measured at fair value, less transaction costs except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value. All financial assets are recognized and derecognized on a trade date where the purchase or sale of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe established by the market.

Financial assets are classified into the following specified categories: financial assets as ‘at fair value through profit or loss’, ‘held-to-maturity investments’, ‘available-for-sale financial assets’ and ‘loans and receivables’. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

2.8 Valuation Principles Applied / Significant Accounting Policies (cont’d)

2.8.8 Financial instruments (cont’d)

Financial assets (cont’d)

Effective interest method

The effective interest rate method is a method of calculating the amortized cost of a financial asset and of allocating the interest income over the relevant period. The effective interest rate is the ratio exactly discounts the estimated future cash receipts through the expected life of the financial asset to the net present value of the financial asset or in a shorter period where appropriate.

Incomes related to the debt instruments that are held to maturity and are available for sale, and financial assets that are classified as loans and receivables are calculated according to the effective interest rate method.

Available for sale financial assets

Some of the shares and long term marketable securities held by the Group are classified as available for sale and recognized at their fair values.

The financial assets, which are not priced in an active market and the fair value cannot be recognized accurately, are recognized at cost less accumulated impairments.

Gains and losses arising from changes in fair value are recognized directly in the investments revaluation reserve with the exception of impairment losses, interest calculated using the effective interest method and foreign exchange gains and losses on monetary assets which are recognized directly in the consolidated income statement. Where the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously recognized in the investments revaluation reserve is included in the consolidated income statement for the period.

Dividends associated with the available for sale equity instruments are recognized in consolidated income statement when the Group has the right to receive the related payments.

Receivables

Trade receivables and other receivables are initially recognized at their fair value. Subsequently, receivables are measured at amortized cost using the effective interest method.

Impairment of financial assets

Financial assets, other than those at fair value through profit or loss, are assessed for indicators of impairment at each reporting period. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted.

For receivables, the amount of the impairment is the difference between the asset’s carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables where the carrying amount is reduced through the use of an allowance account. When a trade receivable is uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in the consolidated income statement

2.8 Valuation Principles Applied / Significant Accounting Policies (cont’d)

2.8.8 Financial instruments (cont’d)

Financial assets (cont’d)

Impairment of financial assets (cont’d)

With the exception of available for sale equity instruments, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

In respect of available for sale equity securities, any increase in fair value subsequent to an impairment loss is recognized directly in the consolidated statement of comprehensive income.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments which their maturities are three-months or less from date of acquisition and that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. The carrying amount of these assets approximates their fair value.

Financial liabilities

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

Financial liabilities are classified as either financial liabilities ‘at fair value through profit or loss’ or other financial liabilities.

Other financial liabilities

Other financial liabilities are initially accounted at fair value, net of transaction costs.

Subsequently other financial liabilities are accounted at amortized cost using the effective interest method, with interest expense recognized on an effective interest rate basis.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating the interest expense to the relevant period. The effective interest rate is the rate that exactly discounts the estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period to the net carrying amount.

2.8.8 Financial instruments (cont’d)

Derivative financial instruments and hedge accounting

Derivatives are initially recognized at cost of acquisition and are subsequently accounted to their fair value at the end of each reporting period. The method of recognizing the result of gain or loss is dependent on the nature of the item being hedged.

On the date a derivative contract is entered into, the Group designates certain derivatives as either a hedge of the fair value of a recognized asset or liability (fair value hedge) or a hedge from changes that could affect the statement of income due to a specific risk in cash flow of a forecasted transaction (cash flow hedge). Fair value of the Group’s interest swap agreements is determined by valuation methods depending on analyzable market data.

Changes in the fair value of the derivatives that are designated and qualified as cash flow hedges and that are highly effective, are recognized in equity as hedging reserve. Where the forecasted transaction or firm commitment results in the recognition of an asset or a liability, the gains and losses previously booked under equity are transferred from equity and included in the initial measurement of the cost of acquisition of the asset or liability. Otherwise, amounts booked under equity are transferred to the consolidated statement of income and classified as revenue or expense in the period in which the hedged item affects the statement of income.

When the hedging instrument expires, is sold, or when a hedge no longer meets the criteria for hedge than hedge accounting is terminated. Any cumulative gain or loss existing in equity at that time remains in equity and is recognized when the committed or forecasted transaction ultimately is recognized in the statement of income. However, if the hedged transaction is not realized, the cumulative gain or loss that was reported in equity is immediately transferred to the profit or loss of the current period.

The Group evaluates the derivative financial instruments held for fair value hedge purpose with their fair values and associates them with profit or loss.

2.8.9 The effects of foreign exchange rate changes

Foreign currency transactions are recorded at the rates of exchange prevailing on the dates of the transactions. Assets and liabilities denominated in foreign currencies are converted at the exchange rates prevailing on the balance sheet date.

The Group records foreign currency (currencies other than the functional currency of the related company) transactions using exchange rates of the date the transaction is completed. Foreign currency monetary items are evaluated with exchange rates as of reporting date and arising foreign exchange income/expenses are recorded in consolidated statement of income. All monetary assets and liabilities are evaluated with exchange rates of the reporting date and related foreign currency translation differences are transferred to consolidated statement of income. Non-monetary foreign currency items that are recognized at cost are evaluated with historic exchange rates. Non-monetary foreign currency items that are recognized at fair value are evaluated with exchange rates of the dates their fair values are determined.

2.8.10 Earnings per share

Earnings per share, disclosed in the consolidated income statement, are determined by dividing the net income attributable to equity holders of the parent by the weighted average number of shares outstanding during the period concerned.

In Turkey, companies can increase their share capital by distributing “bonus shares” to shareholders from retained earnings. In computing earnings per share, such “bonus share” distributions are assessed as issued shares. Accordingly, the weighted-average number of shares are computed by taking into consideration of the retrospective effects of the share distributions.

2.8.11 Subsequent events

Subsequent events include all events that take place between the balance sheet date and the date of authorization for the release of the balance sheet, although the events occurred after the announcements related to the net profit/loss or even after the public disclosure of other selective financial information.

In the case that events occur requiring an adjustment, the Group adjusts the amounts recognized in its consolidated financial statements to reflect the adjustments after the balance sheet date.

2.8.12 Provisions, contingent liabilities and contingent assets

Provisions are recognized when the Group has a present obligation as a result of a past event, where it is probable that the Group will be required to settle that obligation and when a reliable estimate can be made of the amount of the obligation. Contingent liabilities are assessed continuously to determine the probability of outflow of the economically beneficial assets. For contingent liabilities, when an outflow of resources embodying economic benefits are probable, provision is recognized for this contingent liability in the period when the probability has changed, except for the cases where a reliable estimate cannot be made.

When the Group’s contingent liabilities’ availability is possible but the amount of resources containing the economic benefits cannot be measured reliably, then the Group discloses this fact in the notes.

2.8.13 Related parties

A related party is a person or entity that is related to reporting entity, the entity that is preparing its financial statements.

- (a) A person or a close member of that person's family is related to a reporting entity if that person:
- (i) has control or joint control over the reporting entity;
 - (ii) has significant influence over the reporting entity; or
 - (iii) is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.
- (b) An entity is related to a reporting entity if any of the following conditions applies:
- (i) The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

A related party transaction is a transfer of resources, services or obligations between a reporting entity and a related party, regardless of whether a price is charged.

2.8.14 Taxation and deferred income taxes

Turkish tax legislation does not permit a parent company and its subsidiary to file a consolidated tax return. Therefore, provisions for taxes, as reflected in the consolidated financial statements, have been calculated on a separate-entity basis.

Income tax expense represents the sum of the current tax and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in future and it further excludes items that are never taxable or deductible. The Group’s liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is determined by calculating the temporary differences between the carrying amounts of assets/liabilities in the financial statements and the corresponding tax bases, used in the computation of the taxable profit, using currently enacted tax rates. Deferred tax liabilities are generally recognized for all taxable temporary differences where deferred tax assets resulting from deductible temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized if it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2013

(Amounts are expressed as Turkish Lira ("TRY") unless otherwise indicated.)

NOTE 2 – BASIS OF PRESENTATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

(cont'd)

2.8 Valuation Principles Applied / Significant Accounting Policies (cont'd)

2.8.14 Taxation and deferred income taxes (cont'd)

Deferred tax (cont'd)

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax for the period

Current and deferred tax are recognized as an expense or income in the consolidated income statement, except when they relate to the items credited or debited directly to the equity (in this case the deferred tax related to these items is also recognized directly in the equity), or where they arise from the initial accounting of a business combination. In the case of a business combination, the tax effect is taken into account in calculating goodwill or determining the excess of the acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over cost.

2.8.15 Employee benefits

According to the Turkish and Romanian law and union agreements, employee termination payments are made to employees in the case of retiring or involuntarily leaving. Such payments are considered as a part of defined retirement benefit plan in accordance with IAS19 (revised) "Employee Benefits" ("IAS 19").

The termination indemnities accounted in the balance sheet and seniority incentive premium in accordance with the union agreements in force represent the present value of the residual obligation. Actuarial gains and losses, on the other hand, are recognized in the statement of other comprehensive income.

The Group makes certain assumptions about discount rates, inflation rates, future salary increases and employee turnover rates in calculation of provisions for employee benefits. The present value of employee benefits as of 31 December 2013 is calculated by an independent actuary and some changes are done in accounting assumptions used in calculations. The impact of the changes in assumptions is recognized in the statement of income. The details related with the defined benefit plans are stated in Note 16.

Liabilities due to unused vacations classified as provisions due to employee benefits are accrued and discounted if the discount effect is material.

The Group companies operating in Turkey are required to pay social insurance premiums to the Social Security Agency. As long as it pays these insurance premiums, the Group does not have any further obligation. These premiums are reflected in the payroll expenses incurred in the period.

2.8.16 Government grants and incentives

Government grants and incentives are recognized at fair value when there is assurance that these grants and incentives will be received and the Group has met all conditions required. Government grants and incentives related to costs are recognized as revenue during the periods they are matched with the costs they will cover.

2.8.17 Statement of cash flows

Cash flows during the period are classified and reported as operating, investing and financing activities in the consolidated statement of cash flows.

Cash flows arising from operating activities represent the cash flows that are used in or provided by the Group’s steel products and metal sales activities.

Cash flows arising from investment activities represent the cash flows that are used in or provided by the investing activities (direct investments and financial investments) of the Group.

Cash flows arising from financing activities represent the cash proceeds from the financing activities of the Group and the repayments of these funds.

Cash and cash equivalents comprises of the cash on hand, the demand deposits and highly liquid other short-term investments which their maturities are three months or less from the date of acquisition, are readily convertible to cash and are not subject to a significant risk of changes in value.

The translation difference that occurs due to translation from functional currency to presentation currency is shown as translation difference on cash flow statement.

2.8.18 Share capital and dividends

Common shares are classified as equity. Dividends on common shares are recognized in equity in the period which they are approved and declared.

2.8.19 Treasury shares

When share capital recognized as equity is repurchased, the amount of the consideration paid which includes directly attributable costs, is net of any tax effects, and is recognized as a deduction from equity. Repurchased shares are classified as treasury shares and are presented as a deduction from total equity. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to/from retained earnings.

NOTE 3 – SEGMENT REPORTING

The operations of the Group in İskenderun and Ereğli have been defined as geographical segments. However, the segments with similar economic characteristics have been combined into a single operating segment considering the nature of the products and the production processes, methods to allocate the products and the type of customers or to provide services.

NOTE 8 – TRADE RECEIVABLES AND PAYABLES (cont'd)

According to the market conditions and product types, a certain interest charge is applied for deferred trade receivables and overdue interest is applied for overdue trade receivables.

As the Group provides services and products to a large number of customers, collection risk is widely distributed amongst these customers and there is no significant credit risk exposure. Therefore, the Group does not provide for any further provision beyond the doubtful receivables provisions that the Group has already provided for in the consolidated financial statements.

As of the balance sheet date, there is no significant amount of overdue receivables within the trade receivables.

Other explanatory notes related to the credit risk of the Group are disclosed in Note 31.

The Group provides a specific amount of provision according to the balances of all unsecured receivables under legal follow up.

As of the balance sheet date, the details of the Group's trade payables are as follows:

	31 December 2013	31 December 2012

Social security grants	1.348.291	500.839
	<u>1.478.838</u>	<u>1.179.781</u>

These grants and incentives can be used by all companies, which meet the related legislative requirements and those grants have no sectoral differences.

The subsidiary of the Group Erdemir Madencilik Sanayi ve Ticaret A.Ş has granted the investment incentive certificate numbered 110476 for Iron Ore Beneficiation and Pellet Plant in 31 May 2013. The investment will take place in Malatya city Hekimhan Hasançelebi town with the production capacity 3.000.000 ton/per year. Total expenses of the new investment is TRY 1.569.000.000. There is no investment incentive used as of 31 December 2013.

There is an investment incentive right of the Group amounting to TRY 221.264.104 with indefinite useful life, deductible in the next periods within the concept of the law numbered 5479, article 2 which repealed the 19th article of Income Tax Law (ITL) as of 1 January 2006 (31 December 2012: TRY 204.883.114).

NOTE 16 – EMPLOYEE BENEFITS

The Group’s payables for employee benefits are as follows:

	31 December 2013	31 December 2012
Due to personnel	66.870.456	61.083.831
Social security premiums payable	22.676.369	21.941.319
Employee’s income tax payables	19.247.364	18.291.964
	<u>108.794.189</u>	<u>101.317.114</u>

Provision of the employee termination benefits of the Group is as follows:

	31 December 2013	31 December 2012
Provisions for employee termination benefits	307.527.785	265.082.814

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31
DECEMBER 2013

(Amounts are expressed as Turkish Lira (“TRY”) unless otherwise indicated)

NOTE 16 – EMPLOYEE BENEFITS (cont’d)

The employee termination benefit legally is not subject to any funding requirement.

The employee termination benefit has been calculated by estimating the present value of the future probable obligation of the Group arising from the retirement of employees. TAS 19 (“Employee Benefits”) requires actuarial valuation methods to be developed to estimate the Group’s obligation under defined benefit plans. The obligation as of 31 December 2013 has been calculated by an independent actuary.

The actuarial assumptions used in the calculation of the present value of the future probable obligation are as follows:

	<u>31 December 2013</u>	<u>31 December 2012</u>
Discount rate	9.40%	7.62%
Inflation rate	6.3%	4.3%
Salary increase	real 1.5%	real 1.5%
Maximum liability increase	6.3%	4.3%

Discount rates are determined considering the expected duration of the retirement obligations and the currency in which the obligations will be paid. In calculations as of 31 December 2013, a fixed discount rate is used. Long term inflation estimates are made using an approach consistent with discount rate estimates and long term inflation rate fixed over years is used.

The anticipated rate of resignation which do not result in the payment of employee benefits is also considered in the calculation. The anticipated rate of resignation is assumed to be related with the past experience, therefore past experiences of employees are analyzed and considered in the calculation. In the actuarial calculation as of 31 December 2013, the anticipated rate of resignation is considered to be inversely proportional to the past experience. The anticipated rate of resignation is between 2%-0% for the employees with past experience between 0-15 years or over.

The movement of the provision for employee termination benefits is as follows:

	<u>1 January- 31 December 2013</u>	<u>1 January- 31 December 2012</u>
Opening balance	265.082.814	199.372.291
Service cost	27.308.168	23.764.160
Interest cost	20.923.599	19.052.935
Actuarial loss	14.281.389	36.032.589

Translation difference	2.145.323	-
Closing balance	<u>307.527.785</u>	<u>265.082.814</u>

According to the current labor agreement, employees completing their 10th, 15th and 20th service years receive seniority incentive premium payments.

The Company, prepared its interim consolidated financial statements as of 31 March 2005, 30 June 2005 and 30 September 2005 according to CMB’s Communiqué Serial X1 No 25 on “Accounting Standards to be implemented in Capital Markets” which is not in effect today, whereas its consolidated financial statements of 31 December 2005 was prepared according to International Financial Reporting Standards by virtue of the Article 726 and Temporary Article 1 of the aforementioned Communiqué, and CMB’s letter no. SPK.017/83-3483 dated 7 March 2006, sent to the Company Management. The aforementioned Communiqué (Serial X1 No. 25 on the “Accounting Standards to be implemented in Capital Markets”), and Communiqués inserting some provisions thereto together with the Communiqués amending it, became effective starting with the consolidated financial statements of the first interim period ending after 1 January 2005.

CMB asked the Company to prepare its consolidated financial statements of 31 December 2005 all over again according to the same accounting standards set used during the period, to publish those statements, and to submit them to the General Assembly Approval as soon as possible, by stating on its decision no. 21/526 dated 5 May 2006 that the Company’s changing the accounting standards set used during the term (Serial X1, No 25) at the end of the same term (UFRS) caused decrease amount of TRY 152.329.914 on the period income.

NOTE 17 – PROVISIONS (cont’d)

The Company challenged the aforementioned decision before the 11th Administrative Court of Ankara (E. 2006/1396). This lawsuit was rejected on 29 March 2007, but the Company appealed this rejection on 11 September 2007. 13th Chamber of the Council of State rejected the appeal on 12 May 2010; however the Company also appealed this rejection on 2 September 2010. However, 13th Chamber of the Council of State also dismissed this appeal against rejection on 6 June 2012 with its decision No. E. 2010/4196, K. 2012/1499. This decision was notified to the Company’s lawyers on 16 July 2012.

CMB, prepared the Company’s consolidated financial statements as of 31 December 2005, which had been prepared according to the IFRS, by adding the negative goodwill of TRY 152.329.914, that had previously been added to the accumulated earnings, to the profit of 2005 on its own motion and account, and published them on Istanbul Stock Exchange Bulletin on 15 August 2006; with the rationale that the Company had not fulfilled its due demand on grounds that “Article 726 and Temporary Provision 1 of CMB’s Communiqué Serial XI, No. 25 authorize the use of IFRS on consolidated financial statements of 2005, although CMB had given the Company a ‘permission’ No. SPK.0.17/83-3483 of 7 March 2006, and the lawsuits regarding this issue are still pending”. The Company challenged CMB’s aforementioned decision by a separate lawsuit on 10 October 2006. 11th Administrative Court of Ankara rejected this case on 25 June 2007. The Company appealed this rejection 11 October 2007; 13th Chamber of the Council of State, accepted the appeal request and abolished the rejection judgment. CMB appealed the Chamber’s decision on 6 September 2010. 13th Chamber of the Council of State accepted CMB’s appeal and reverted its previous abolishment decision, and ratified 11th Administrative Court of Ankara’s judgment by the majority of the votes on 30 May 2012 with its decision no. E. 2010/4405; K. 2012/1352. This decision was notified to the Company’s lawyers on 20 July 2012.

In the meeting no. 29/1110 dated 7 December 2008, CMB imposed administrative fine upon management of the Company as the Company did not obey the decision of CMB dated 2 December 2006 asking the Company to restate its consolidated financial statements of 31 December 2005. The Company appealed against the administrative fine. Ankara 1. Criminal Court of Peace accepted the appeal request with its decision no. 2006/1480 dated 7 July 2009. CMB appealed this decision. However, this time Ankara 3. High Criminal Court rejected CMB’s appeal request with its decision no. 2009/320 dated 10 August 2009 and the rejection decision is final and definite.

Consequently, the decisions given by two different courts conflicted with each other.

In 1 August 2012, the Company applied to 11th Administrative Court of Ankara to remove the decision conflict of these courts by adopting Ankara 1. Criminal Court of Peace’s decision no. 2006/1480 dated 7 July 2009 instead of decisions no E.2006/2548, K.2007/1071 dated 25 June 2007 and no. E.2006/1396, K.2007/494 dated 29 March 2007.

Meanwhile, Company’s Shareholders’ General Assembly, which was held at 30 March 2006, decided dividend distribution according to the consolidated financial statements as of 31 December 2005, which were prepared according to IFRS. Privatization Administration, who has a usufruct right over 1 (one) equity share among the Company shares it transferred to Ataer Holding A.Ş., filed a lawsuit before the 3th Commercial Court of Ankara against the aforementioned General Assembly decision, and claimed that, dividend distribution decision must be abolished and TRY 35.673.249 allegedly unpaid dividend must be paid to itself (E. 2006/218). The Court rejected the case on 23 October 2008; Privatization Administration appealed this rejection on 7 January 2009. Court of Appeals’ 11th Chamber reversed this rejection judgment on 30 November 2010; this time the Company appealed the Chamber’s decision on 18 February 2011.

NOTE 17 – PROVISIONS (cont’d)

However, the Chamber rejected the Company’s appeal on 14 July 2011. The case file, sent back to 3th Commercial Court of Ankara once again. Therefore the case is still pending (E. 2011/551).

Had the Company started to prepare its consolidated financial statements in accordance with IFRS after 31 December 2005, it would also have to present the comparative consolidated financial statements in accordance with IFRS based on “IFRS 1: First-time adoption of International Financial Reporting Standards” and the previously recognized negative goodwill would be transferred directly to retained earnings on 1 January 2005 instead of recognizing in the consolidated income statement in accordance with “IFRS 3: Business Combinations”. Therefore, the net profit for the periods ended 31 December 2013 and 31 December 2012 will not be affected from the above mentioned disputes.

The Company, based on the above mentioned reasons, did not make any adjustments in the accompanying consolidated financial statements for the possible effects of changes in the net profit for the year ended 31 December 2005 due to the lawsuits mentioned above and waits for the result of its claim about removal of decision conflict and resolution of the pending lawsuit opened by Privatization Administration.

Enerjia Metal Maden Sanayi ve Ticaret A.Ş. initiated a debt collection proceeding that might end with a bankruptcy judgment against the Company based on the Export Protocol No. 69187 of 02 July 2009 and “Additional Terms to the Erdemir-Enerjia Export Protocol No. 68197” drafted by and between Enerjia and the Company. However the process stopped upon the Company’s objection to Enerjia’s request, and that led Enerjia to file a lawsuit against the Company before the 7th Commercial Court of Ankara on 27.03.2010 claiming that the objection should be overruled and 68.312.520 USD should be paid to itself (E. 2010/259). The Court dismissed the case, in favor of the Company, on 23.06.2011. Enerjia appealed this rejection. 23rd Chamber of the Court of Appeals accepted this rejection on 6 April 2012 (E. 2011/2915) and after this, the case file was sent back to the 7th Commercial Court of Ankara. Therefore the case is still pending (E. 2013/17) before the 7th Commercial Court of Ankara and the next court hearing is on 17 April 2014.

An action of debt was instituted by Messrs. Bor-San Isı Sistemleri Üretim ve Pazarlama A.Ş. against our company at the 3rd Civil Court of Kdz. Ereğli on 17.04.2013 under file no 2013/253 Esas claiming for the compensation of the loss arising from the sales contract of TL 17.800, reserving the rights for surplus. The Company was informed from the amendment petition, which was served to the company on 01.11.2013 that the plaintiff pleaded from the court to raise the claim to TL 10.837.801,69 as assessed by the expert opinion submitted to the court. The Company contested to the expert opinion and the amendment petition within the statutory period. The court file had entrusted and taken expert report again. It has been contested by the Company within the statutory period. The court was examined the file. The next trial is on 11 March 2014.

Corus International Trading Ltd. Co. (new trading title: Tata Steel International (North America) Ltd.) located at Illinois state of United States of America and the Company executed a contract in 2008. The company fulfilled all its performances arisen from this contract in January and February in 2009. Corus International Trading Ltd. Co. sold to third parties the products supplied from our company but thereafter alleged that they directed claim to some compensation and that these claims must be covered by Erdemir. Parties could not reach an exact agreement about this matter and then Corus International Trading Ltd. Co filed an action for compensation at amount of USD 4.800.000,00 together with accessory against the Company in Illinois State District Court of USA. KAP statement regarding this lawsuit is made by the Company on 17.08.2010.

NOTE 21 – EQUITY (cont’d)

The General Assembly has to choose one member to the Board of Directors from the nominees of the Privatization Administration as the beneficiary owner representing A Group shares. In case, the Board member representing the A Group shares leaves the board within the chosen period, a new board member is obliged to be chosen from the nominees of the Privatization Administration as the beneficiary owner. For decisions to be taken about the rights assigned to A Group shares, the board member representing A Group shares is also obliged to use an affirmative vote.

The decisions to change the Articles of Association of the Company that will have an effect on the board of directors’ meeting and decision quorum, rights assigned to A Group shares, rights assigned to A Group shares in relation to investments and employment decisions and any other changes in the Articles of Association of the Company which will directly or indirectly affect the rights of A Group shares, have to receive an affirmative vote of the beneficiary owner representing the A Group shares. Otherwise, the decisions are accepted as invalid.

Article IV-K of Articles of Association “According to Turkish Commercial Code Article 329, transactions of an entity’s own shares” allows Erdemir to purchase, hold, sell or transfer its own shares, without voting rights. As of 31 December 2013, the Company holds its own shares with a nominal value of TRY 107.836.853 (31 December 2012: TRY 95.204.536). NOTE 21 – EQUITY (cont’d)

Other equity items are carried at the amounts that are valued based on the CMB’s Financial Reporting Standards.

Capital restatement differences may only be considered as part of the paid-up capital.

Listed companies distribute dividend in accordance with the Communiqué No. 11-19.1 issued by the CMB which is effective from February 1, 2014.

Companies distribute dividends in accordance with their dividend payment policies settled and dividend payment decision taken in general assembly and also in conformity with relevant legislations. The communiqué does not constitute a minimum dividend rate for the publicly-held subsidiaries. Companies distribute dividend in accordance with the method defined in their dividend policy or articles of incorporation. In addition, dividend can be distributed by fixed or variable installments and advance dividend can be paid in accordance with profit on interim financial statements of the Company.

In accordance with the Turkish Commercial Code (TCC), unless the required reserves and the dividend for shareholders as determined in the article of association or in the dividend distribution policy of the company are set aside, no decision may be made to set aside other reserves, to transfer profits to the subsequent year or to distribute dividends to the holders of usufruct right certificates, to the members of the board of directors or to the employees; and no dividend can be distributed to these persons unless the determined dividend for shareholders is paid in cash.

Inflation adjustments to issued capital and historical amount of extraordinary reserves can be used as an internal source of capital increase, dividend distribution in cash or the net off from prior period losses. In case of usage of inflation adjustment to issued capital in dividend distribution in cash, it is subject to corporation tax.

Other sources which might be used in dividend distribution, except the profit for the period, in statutory books of the Company are equal to TRY 1.024.546.234 as of 31 December 2013 (31 December 2012: TRY 1.849.665.654).

The legal reserves and the share premium, which is regarded as legal reserve in accordance with TCC Article 466, are presented using their amounts in statutory records. In this context, the difference of inflation restatements in accordance with IFRS framework, that are not subject to profit distribution or capital increase as of the date of financial statements, is associated with the retained earnings.

According to the first paragraph of Article 519 numbered 6102 of the Turkish Commercial Code (“TCC”), 5% of the profit shall be allocated as the first legal reserves, up to 20% of the paid/ issued capital. First dividend is appropriated for shareholders after deducting from the profit. Following the deduction of the amounts from the “profit”, General Assembly of Shareholders is authorized to decide whether shall be the remaining balance shall be fully or totally placed in extraordinary legal reserves or whether it is distributed, also taking into consideration the Company’s profit distribution policy. According to the sub-clause 3 of the clause 2 of Article 519 of the Turkish Commercial Code, after deducting dividends amounting to 5% of the paid/issued capital from the part decided to be allocated; ten percent of the remaining balance shall be appropriated to second legal reserves. If it is decided to distribute the profit as bonus share, through the method of adding the profit to the capital, second legal reserves is not appropriated.

NOTE 21 – EQUITY (cont’d)

According to the CMB Communiqué, until the company’s Article of Association was revised on 31 March 2008, an amount equal to the first dividend distributed to shareholders is allocated as status reserves in order to be used in the plant expansion. Also according to the 13th Article of Association before the revision on 31 March 2008, 5% of the net profit for the period after taxation is estimated to be allocated as legal reserves up until reaching 50% of the paid/issued capital. The reserve amount that exceeds the 20% of the legal reserves, defined by the Article 519 of TCC, is recorded as status reserve. Company’s Shareholders’ General Assembly, which was held at 30 March 2012, decided status reserves can be used as an internal source of capital increase and profit sharing.

Cash flow hedging reserve arises from the recognition of the changes in the fair value of derivative financial instruments that are designated and effective as hedges of future cash flows directly in equity. The amounts deferred in equity are recognized in the consolidated statement of income in the same period, if the hedged item affects profit or loss.

Revaluation reserve of property, plant and equipment arises from the revaluation of land and buildings. In the case of a sale or retirement of the revalued property, the related revaluation surplus remaining in the properties revaluation reserve is transferred directly to the retained earnings.

The amendment in IAS-19 “Employee Benefits” does not permit the actuarial gain /loss considered in the calculation of provision for employee termination benefits to be accounted for under the statement of income. The gains and losses arising from the changes in the actuarial assumption have been accounted for by “Actuarial (Loss)/Gain Funds” under the equity. The funds for actuarial gains/ (losses) in the employee termination benefits is not in a position to be reclassified under profit and loss.

As it stated in Note 2.1, foreign currency translation reserve arises from expressing the assets and liabilities of the Group’s foreign operations in reporting currency TRY by using exchange rates prevailing on the balance sheet date. Exchange differences arising, if any, are recognized under translation reserve in equity.

Corporate tax

The Group, except its subsidiary in Romania, is subject to Turkish corporate taxes in force. The necessary provisions are allocated in the consolidated financial statements for the estimated liabilities based on the Group’s results for the year. Turkish tax legislation does not permit a parent company and its subsidiary to file a consolidated tax return. Therefore, provisions for taxes, as reflected in the consolidated financial statements, have been calculated on a separate-entity basis.

Corporate tax is applied on taxable corporate income, which is calculated from the statutory accounting profit by adding non-deductible expenses, and by deducting dividends received from resident companies, other exempt income and investment incentives utilized.

The effective corporate tax rate in Turkey is 20% and 16% in Romania as of 31 December 2013 (31 December 2012: in Turkey 20%, in Romania 16%). The total amount of the corporate tax paid by the Group in 2013 is TRY 163.198.609 (31 December 2012: TRY 85.766.787).

NOTE 28 –TAX ASSETS AND LIABILITIES (cont’d)

Corporate tax (cont’d)

In Turkey, advance tax returns are filed on a quarterly basis. The temporary tax of 2013 has been calculated over the corporate earnings using the rate 20%, during the temporary taxation period. (2012: 20%).

Losses can be carried forward to offset the future taxable income for up to maximum 5 years (Romania: 7 years). However, losses cannot be carried back to offset the profits of the previous periods, retrospectively.

In Turkey, a definite and distinct reconciliation procedure for tax assessment does not exist. Companies file their tax returns between 1 April - 25 April following the closing period of the related year’s accounts. Tax returns and related accounting records may be examined and revised within five years.

Income withholding tax

In addition to corporate taxes, companies should also calculate income withholding taxes on dividends distributed, except for the dividends distributed to fully fledged taxpayer companies receiving and declaring these dividends and to Turkish branches of foreign companies. The rate of income withholding tax applied to all companies in the period of 24 April 2003 - 22 July 2006 is 10%. This rate was changed to 15% as of 22 July 2006 by the decision of the Council of Ministers, numbered 2006/10731. Undistributed dividends incorporated in share capital are not subject to the income withholding taxes.

19,8% withholding tax must be applied to the investment allowances relating to investment incentive certificates obtained prior to 24 April 2003. Investment disbursements without any investment incentive certificate after this date which are directly related to production facilities of the company can be deducted by 40% from the taxable income. The investments without investment incentive certificates do not qualify for tax allowance.

Investment allowance application

With the decision numbered 2006/95, which was taken during the meeting of the Constitutional Court on 15 October 2009, the phrase “only related to the years 2006, 2007 and 2008...” which was a part of the Temporary Article 69 of the Income Tax Law was cancelled and the cancellation became effective from the date the decision has been published in the Official Gazette on 8 January 2010. According to the decision, the investment incentive amount outstanding that cannot be deducted from 2008 taxable income previously, will be deducted from taxable income of the subsequent profitable years.

Regarding the cancellation decision taken by the Constitutional Court, an amendment was made in the 69th article in Income Tax Regulation using the regulation numbered 6009 and dated 23 July 2010. Consequently, in compliance with the cancellation decision of the Constitutional Court, the year limitation has been abolished and investment allowance has been limited to 25% of the profit. As limitation of investment allowance to 25% of the profit by regulation numbered 6009 is found to be contrary to law by the Constitutional Court, the Constitutional Court cancelled the regulation and stayed an execution. Corporate tax ratio of 30% in the previous regulation for the ones who benefit from investment allowance has been decreased to the effective corporate tax with the amendment made (2012: 20%).

NOTE 28 –TAX ASSETS AND LIABILITIES (cont'd)

Deferred tax

The Group recognizes deferred tax assets and liabilities based upon the temporary differences arising between its taxable statutory financial statements and its financial statements prepared in accordance with the CMB's Communiqué on Accounting Standards. These differences usually result in the recognition of revenue and expenses in different reporting periods for the CMB regulations and tax purposes and are explained below.

Tax rate used in the calculation of deferred tax assets and liabilities (excluding land) are 20% for the subsidiaries in Turkey and, 16% for the subsidiary in Romania (31 December 2012: in Turkey 20%, in Romania 16%). Deferred tax related with the temporary differences arising from land parcels is calculated with the tax rate of 5% (December 2012: 5%).

As the companies in Turkey cannot give a consolidated corporate tax declaration, subsidiaries that have deferred tax assets are not netted off with subsidiaries that have deferred tax liabilities and disclosed separately.

Additional information about financial instruments

(a) Capital risk management

The Group manages its capital through the optimization of the debt and the equity balance that minimizes the financial risk.

Through the forecasts regularly prepared by the Group, the future capital amount, debt to equity ratio and similar ratios are forecasted and required precautions are taken to strengthen the capital.

The capital structure of the Group consists of debt which includes the financial liabilities disclosed in Note 6, cash and cash equivalents and equity attributable to equity holders of the parent company, comprising issued capital, reserves and retained earnings as disclosed in Note 20.

The Group’s Board of Directors analyze the capital structure in regular meetings. During these analyses, the Board of Directors also evaluates the risks associated with each class of capital together with the cost of capital. The Group, by considering the decisions of the Board of Directors, aims to balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debt or the redemption of existing debt.

As of 31 December 2013 and 31 December 2012 the net debt/equity ratio is as follows:

	Note	31 December 2013	31 December 2012
Total financial liabilities	6	3.500.079.222	4.418.751.937
Less: Cash and cash equivalents	4	761.111.225	1.829.716.171

Net debt/Total adjusted equity ratio 31% 35%

Distribution of net debt/ total adjusted equity 24/76 26/74

(*) Total adjusted equity is calculated by subtracting cash flow hedging reserves and actuarial (loss)/ gain fund and adding non-controlling interests.

(b) Significant accounting policies

The Group’s accounting policies related to the financial instruments are disclosed in Note 2 “Summary of Significant Accounting Policies, 2.9.8 Financial Instruments”.

(c) Financial risk management objectives

The Group manages its financial instruments through a separate treasury function which was established for that purpose. The developments are followed on a real time basis. The Group’s corporate treasury function manages the financial instruments through daily regular meetings by evaluating the domestic and international markets and by considering the daily cash inflows and outflows in accordance with the policies and regulations issued by the Group Risk Management Unit. At the end of each day, each Group company prepares a “daily cash report” and Group Risk Management Unit calculates daily Value at Risk (VaR) for cash and cash equivalents. The information included therein is consolidated by the treasury function and used to determine the cash management strategies. Additionally, the Group’s annual payment schedules are followed through the weekly reports and annual cash management is followed by the monthly reports.

The Group utilizes derivative financial instruments as required and within the terms and conditions determined by the Group Risk Management Unit. Instruments that are highly liquid and securing a high-level yield are preferred when determining the financial instruments. In that respect, the Group has a right to claim the accrued interest on time deposits when withdraw before the predetermined maturity.

(d) Market risk

The Group is exposed primarily to the financial risks of changes in foreign exchange rates and interest rates. The Group utilizes the following financial instruments to manage the risks associated with the foreign exchange rates and interest rates. Also, the Group follows price changes and market conditions regularly and takes action in pricing instantaneously.

The Group prefers floating interest rates for long term borrowings. To hedge against the interest risk the Group uses interest swap agreements for some of its borrowings.

In the current period, there is no significant change in the Group’s exposure to the market risks or the manner which it manages and measures risk when compared to the previous year.

(e) Credit risk management

Trade receivables include a large number of customers scattered in various sectors and regions. There is no risk concentration on a specific customer or a group of customers. The majority trade receivables are assured by bank letters of guarantee and/or credit limits. The credit reviews are performed continuously over the accounts receivable balance of the customers. The Group does not have a significant credit risk arising from any customer.

The following table shows the Group’s sensitivity to a 10% (+/-) change in the TRY, EURO and Japanese Yen. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management’s assessment of the possible change in foreign exchange rates.

As of 31 December 2013 asset and liability balances are translated by using the following exchange rates: TRY 2,1343 = US \$ 1, TRY 2,9365 = EUR 1 and TRY 0,0202= JPY 1 (31 December 2012: TRY 1,7826 = US \$ 1, TRY 2,3517 = EUR 1 and TRY 0,0207= JPY 1)

(g) Interest rate risk management

The majority of the Group's borrowings are based on floating interest rate terms. In order to manage the exposure to interest rate movements on certain portion of the bank borrowings, the Group uses interest rate swaps and changes floating rates to fixed rates.

In addition, through the use of deposits in which the Group has a right to claim the accrued interest when withdrawn before the predetermined maturity, the Group minimizes the interest rate risk by increasing the share of floating rate denominated assets in its consolidated the balance sheet.

Furthermore, for borrowings denominated in foreign currencies, except for US Dollars, the Group minimizes its interest rate risk by leveraging in foreign currencies that bear lower interest rate. In addition, a higher interest rate is applied to the trade receivables with a maturity when compared to the interest rate exposed for trade payables.

Interest rate sensitivity

The following sensitivity analysis is based on forecasted interest rate changes for the liabilities denominated in variable interest rates. The information details the Group's sensitivity to an increase/decrease of 0,50% for US Dollars and EURO, 0,25% for Jap.Yen and 1,00% for TRY denominated interest rates.

Since the principal payments of the loans with floating interest rates are not affected from changes in interest rates, the risk exposure of the Group loans is measured using a sensitivity analysis instead of a Value at Risk calculation.

Interest position table

	<u>31 December 2013</u>	<u>31 December 2012</u>
Floating interest rate financial instruments		
Financial liabilities	1.996.415.902	1.250.311.286

In addition to these, as of 31 December 2013, the amount of the Group's financial loans is TRY 810.870.878 of which the floating interest rates have been fixed by the hedge purposed agreements (31 December 2012: TRY 1.117.505.015) (Note 6).

For the year round, if the US Dollars, EURO and Jap. Yen denominated interest rates increase/decrease by 100 base points in TRY, 50 base points in US Dollars and EURO and 25 base points in Jap.Yen respectively ceteris paribus, the profit before taxation and non-controlling interest after considering the effect of capitalization and hedging would be lower/higher TRY 7.217.623 (31 December 2012: TRY 5.966.944).

Interest rate swap agreements

The Group uses interest rate swap instruments and pays/receives the difference between fixed interest rate and floating interest rates multiplied by the nominal amount. These contracts aim to mitigate the risk of fluctuations in the cash flow which the Group is exposed to due to borrowings with floating interest rates.

As of the balance sheet date, the Group's agreed unpaid nominal amounts of the interest rate swap agreements and their remaining terms until maturity are stated below:

31 December 2013

Unrealized agreements with fixed payments and floating interest receipts	Average fixed interest rate of the agreements	Nominal amount(*)	Fair Value
Between 1-5 years	1,49%	412.162.642	(4.687.073)
		<u>412.162.642</u>	<u>(4.687.073)</u>

31 December 2012

Unrealized agreements with fixed payments and floating interest receipts	Average fixed interest rate of the agreements	Nominal amount(*)	Fair Value

Between 1-5 years	1,39%	771.415.364	(12.088.506)
More than 5 years	1,68%	86.587.562	(2.488.220)
		<u>1.031.432.309</u>	<u>(14.855.607)</u>

(*) In order to hedge against the interest rate risk of the borrowings with floating rates, the Group trades floating interest rates with fixed rates by making swap agreements. The fair value of the interest rate swap agreements with a nominal amount of TRY 412.162.642 (31 December 2012: TRY 1.031.432.309) is found to be effective. The fair value of such agreements which is categorized as cash flow hedges, is recognized under equity with its deferred tax effect and non-controlling interest deducted as TRY (3.525.812) (31 December 2012: TRY (11.134.225)).

(h) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has built an appropriate liquidity risk management framework for the management of the Group’s short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by continuously monitoring forecasted and actual cash flows and matching the maturity profiles of financial assets and liabilities and maintaining adequate funds and reserves.

Liquidity risk tables

Conservative liquidity risk management includes maintaining sufficient cash, availability of sufficient amount of borrowings and funds and ability to settle market positions.

The Group manages its funding of actual and forecasted financial obligations by maintaining the availability of sufficient number of high quality loan providers.

The following table details the Group’s expected maturity for its derivative and non derivative financial liabilities. Interests which will be paid on borrowings in the future are included in the relevant columns in the following table.

Changes in working capital occurs due to translation from functional currency to presentation currency in 1 January - December 2013 period.

The details and the amounts of the adjustments and reclassifications made of the balance sheet are as follows:

Based on the Group management’s preliminary assessment, the amendment is effective for annual periods beginning on or after 1 January 2013, the Group is reviewed the employee termination benefit for the period after 1 January 2007 and adjust amounts and the related cumulative actuarial gain/loss into the provisions for employment benefits on in the consolidated balance sheet at 31 December 2011. Because it is not possible to assess the actuarial gain/loss for the periods before 1 January 2007, the Group could not assess the classification of cumulative actuarial gain/ loss balance for the periods before 1 January 2007.

The Group reclassify the actuarial gain/ loss amount after the deferred tax effect into the actuarial gain/loss fund in income statement for the year 2012.

In accordance with the communiqué numbered 11-14,1 “Communiqué on the Principles of Financial Reporting In Capital Markets” (“the Communiqué”) announced by the Capital Markets Board (“CMB”), a new illustrative financial statements and guidance to it has been issued effective from the interim periods ended after 31 March 2013, the effects of reclassifications on consolidated financial statements, for the period 31 December 2012 and 31 December 2011, of accounted actuarial gain/loss from provisions of employee benefits under comprehensive income statement and reclassified of provision of unused vacation from short-term liabilities into the long-term liabilities are set out below:

Convenience translation to English:

The effect of differences between the Financial Reporting Standards published by the POA of Turkey and accounting principles generally accepted in countries in which the consolidated financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified in the consolidated financial statements. The differences with IFRS mainly related to the application of inflation accounting which was ceased one year later in IFRS, and the presentation of the basic consolidated financial statements and the notes to them. Accordingly, the consolidated financial statements are not intended to present the consolidated financial position and consolidated financial performance of Ereğli Demir ve Çelik Fabrikaları T.A.Ş. and its subsidiaries in accordance with the accounting principles generally accepted in such countries and IFRS.
